Paws With A Cause® (PAWS), a nationally renowned assistance and facility dog organization, is currently seeking experience and compassionate dog trainers to join our team as Independent Contractors. This is a unique and fulfilling opportunity to make a meaningful difference in the lives of individuals with disabilities—**while maintaining your own schedule and career.**

About the role: Field Representatives work closely with our clients throughout various stages of their assistance and facility dog journey, including:

- Conducting video-based **needs assessments** for applicants
- Supporting the **placement process** of custom-trained assistance dogs in client's homes
- Teaching clients how to **utilize their dog's skills** effectively both at home and in the community
- Recording **certification videos** at the end of placement
- Providing **re-training sessions, re-certifications**, and ongoing support as needed
- Participating in **community education presentations** and **foster puppy classes** when requested

What We're Looking For:

- Three to four years of verifiable **dog training experience**
- Strong interpersonal skills
- Availability to meet a client's need for in-home and in public training sessions. This could mean daytime, evening or weekend sessions depending on the client's availability
- Willingness to travel to client homes and communities. You will set your coverage with a minimum of 100 miles radius and maximum of 200 mile radius
- Valid **driver's license** and personal vehicle
- Proof of **liability** and **auto insurance**
- Willingness to undergo a criminal background check
- Must attend a week long **Trainer Orientation Program** in Wayland, Michigan, prior to being accepted into the program

Ideal Candidates Are:

- Independent, reliable, responsive and highly organized
- Passionate about serving their community
- Confident communicators—both written and verbal
- Skilled problem solvers with a calm, patient demeanor
- Comfortable with flexible scheduling
- Applicant should be comfortable using computers and common software programs
